Lighting Tips

- **Sit near a bright window, or use a daylight lamp placed beside you on the side of your better eye.**
- **Aim the light at the page, not at your eyes, to avoid glare.**
- **A matte surface under the book helps reduce shine.**
- **A slanted reading stand or a stack of books under the top edge brings the page closer to your eyes.**
- **Take short breaks. Look away into the distance to rest your eyes.**
